

**Premium Plate®**  
a TF Warren Company

**Full service provider of steel plate and processing**

**NOW OFFERS Post Weld Heat Treat**

## Overview

Premium Plate is now offering post weld heat treat processing as part of our services to meet the requirements of API 650 tanks. We can now look after all of your insert needs, as well as supplying nozzles and man-ways.

Oven size: 11' tall, 14' wide, and 48' long.  
Serviced by a 50 ton crane.

## Benefits to Customers

At Premium Plate, we are specialists in supplying the tank construction industry.

We offer a full package of:

- Steel plate supply
- Blasted and coated including zincs and epoxies
- Cut, beveled, and rolled to your specifications
- Forming (pontoons, windgirders, etc.)
- PWHT of shell plate including nozzles and man-ways
- All shipped directly to your job site
