

Tarsco Bolted Tank®
a TF Warren Company

**FULL SERVICE PROVIDER OF LIQUID AND DRY
BOLTED STORAGE TANK SYSTEMS**

Tarsco Bolted Tank for all your Biomass Storage Tank Needs

Tarsco Bolted Tank custom designs our tanks and silos specifically to our customers needs.

With a state-of-the-art powder coating system, precise laser cutting technology and carbon steel or stainless steel designs, Tarsco Bolted Tank is the industry's number-one choice for biomass storage systems.

There are many challenges customers face concerning storage and reclaim of hard-to-handle materials. Tarsco Bolted Tank has successfully designed, manufactured and erected multiple tanks and silos throughout the world in the biomass and agricultural industry.

With decades of combined experience in biomass and reclaiming, Tarsco Bolted Tank can successfully store and reclaim the following products in our tanks and silos.

- Wood Chips
- Wood Bark
- Wood Waste
- Wood Flakes
- Wood Pellets
- Wood Fiber
- Saw Dust
- Recycled Plastics
- Soy Meal and other Meals
- Other agricultural products
