An Important Message to our Customers and Suppliers

March 25, 2020

TF Warren Group - A Critical Infrastructure Supplier

These are challenging days for all of us. We want you to know that the TF Warren Group remains open for business, and is ready, willing and able to work with you, our customers and suppliers, to meet those challenges facing our employees, communities and country.

Several states and individual cities and counties have issued closure or stay at home orders to some businesses due to the Covid-19 virus. Among the essential services that are excluded are businesses operating in **Critical Infrastructure Sectors**. Under these guidelines as identified by The Department of Homeland Security (<https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>) our business operations are able to remain open as TF Warren provides services in many of these 16 critical industries, including the Energy, Critical Manufacturing, Transportation and Logistics, and Water & Wastewater Systems Sector.

We recognize the important role that our employees play as we adhere to the recommended practices by the CDC for safety and health allowing us to provide unwavering commitment to serve our customers and suppliers without interruption as our industry, communities and our country move forward.

Thank you for your continuing support.

Sincerely,

Paul Showan
President/TF Warren Group
